Eliminate product contamination
and keep your warehouse clean
with Plastic Pallets from Cherry's

A longer service life.

*Zero product
contamination from
splinters and chips.*

*Odor and chemical
resistant.*

*Consistent dimensions
for every job.*

Easy to sanitize.

*Let Cherry's help you
make the switch today!*

www.cherrysind.com

Wooden pallets are no longer the industry standard they once were. Plants are increasingly turning to plastic pallets to eliminate product contamination, reduce cleaning time, and avoid heat treatment (required prior to international shipments). Plastic pallets also offer a longer service life, as well as lighter repeatable tare weights and dimensional consistency. Our products are also constructed from FDA-compliant materials. We offer stackable, rackable, nestable, drum, and export duty plastic pallets, molded or thermoformed in a variety of styles, configurations and capacities. Visit our design center to create custom modified units to suit your special requirements.

RACKABLE PLASTIC PALLETS

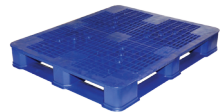

40 x 48 RCKO BLU One Piece Rackable Plastic Pallet

One-piece; 4-way forklift and 4-way pallet jack entry. Engineered specifically for the food and pharmaceutical industries. Flow-through design allows quick washing and draining for high sanitation. Acceptable for use in USDA-inspected meat and poultry plants.

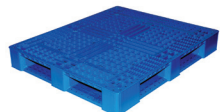

40 x 48 RCKR Rackable Plastic Pallet

Double-deck; 4-way forklift and 4-way pallet jack entry. I-beam protrusion reinforcement. Welded with the EMABOND® process, making the pallet virtually unbreakable. Compatible for most automated-handling environments.

PS8120 General Purpose Rackable Plastic Pallet

Ideal for general industry, food and beverage processing, and warehousing. Designed for increased life; provides twice the forklift damage protection of common single-walled pallets. Includes first-ever pallet jack guide, preventing damage.

RP4840-6 II Rackable Plastic Pallet

Features unique rib design for easy cleaning and sanitary applications; bottom designed for automated conveying; optional anti-skid grommets on both top and bottom. High strength-to-weight ratio; 2,000 lbs. edge rack capacity.

STACKABLE PLASTIC PALLETS

40 x 48 HDSC BLUE One Piece Stackable Plastic Pallet

Double-deck; 4-way forklift and 2-way pallet jack entry. Double-face design ideal for conveyors and other automated equipment applications; also acceptable for use in USDA-inspected meat and poultry operations. Manufactured to stand up to continual heavy use without splintering or deterioration from chemical or weather exposure. USDA-compliant materials.

40 x 48 OPH LD Light Duty Stackable Plastic Pallet

One-piece, hygienic, lightweight plastic pallet for stacking and conveyor use. Ideal for packaging areas where operators may be required to manually handle the pallet. True 4-way forklift and pallet jack entry. Virgin USDA/FDA-compliant materials.

40 x 48 Stack'R Reusable Stackable/Rackable Open Deck Plastic Pallet

Designed to store, ship, and handle products in the food, consumer goods, agricultural, and pharmaceutical supply industries. Versatile design allows for both stacking and lightweight racking. Available with open or solid decks. Open, flow-through design creates a hygienic solution for all types of food and agricultural applications.

SOLID TOP PLASTIC PALLETS

40 x 48 RP4840-6 III Solid Top Plastic Pallet

Closed pallet perfect for pharmaceutical and food applications. Smooth surface allows for easy cleaning; beveled approach edges allow easy access for forklifts. Unique welding prevents any leaks.

40 x 48 P4840S00 Solid Top Plastic Pallet

Extremely rugged, heavy-duty plastic pallet with solid flat top and smooth surfaces for easy cleaning. Constructed to handle dynamic loads up to 5,000 lbs., with static load capacity of up to 25,000 lbs. (with optional steel rods).

EXPORT PLASTIC PALLETS

40 X 48 CIISF Stackable Export Plastic Pallet

4-way entry. Drain holes in deck allow for easy cleaning. Designed for textile, finished goods, and commercial applications. Two-piece design ideal for international shipments. Eco-friendly alternative to wood pallets.

GS4840 NEST HD Nestable Export Plastic Pallet

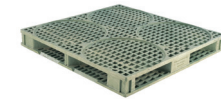

4-way entry; easy-to-clean design, resistant to insects, fungi, and bacteria, as well as water damage. Meets EU, Canadian, and Asian customs requirements. Eco-friendly alternative to wood pallets. Ventilated deck provides excellent air circulation.

CPP336ACM Stackable Export Plastic Pallet

4-way entry, double face design; resistant to insects, fungi, bacteria, and water damage. No heat or chemical treatment required. Full perimeter cruciform footprint for easy, stable stacking of loaded pallets with no product damage. Conforms to ISPM 15 regulations.

DRUM PLASTIC PALLETS

48 x 48 HDSC One Piece Drum Plastic Pallet

One-piece; double-deck; 4-way forklift and 2-way pallet jack entry. Four 3/8" recessed rings to hold 4 55-gallon drums securely during transport and storage. Compatible with most conveyor systems. Open-grid design allows easy, thorough cleaning.

P4848S144-DRUM-SW

Steel-reinforced heavy-duty drum pallet. Non-skid solid top with 4 recessed rings to hold drums and contain small spills. 2-way pallet entry; edge rackable up to 2,500 lbs.
