

40 x 48 Rackstar II™ Rackable Pallet

ORBIS® offers the Rackstar II™ Pallet, with unsupported rack capacity of up to 3,000 pounds. It is the first pallet of its kind to offer unmatched racking capacity, superior durability and unprecedented product versatility.

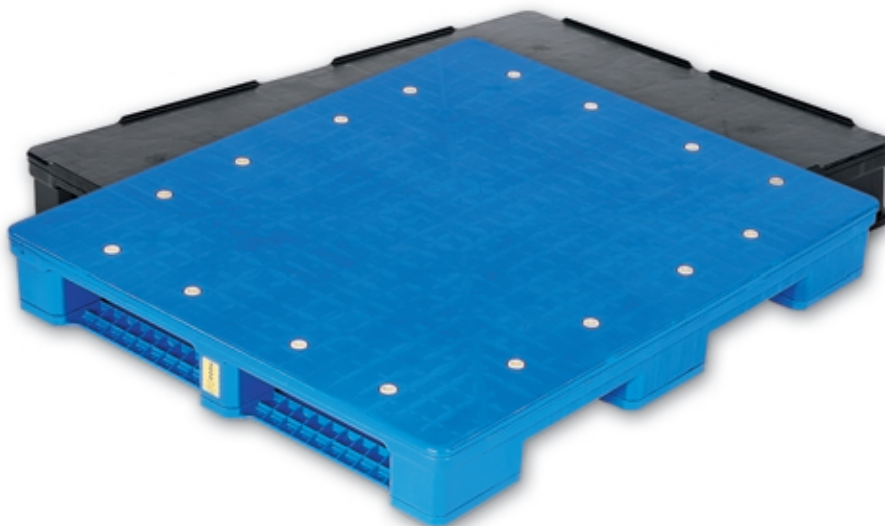

Using revolutionary processes, ORBIS has designed the Rackstar II pallet with an innovative reinforcement structure to meet your specific material handling requirements.

The highly impact-resistant design maintains the pallet's integrity in many racking or conveying environments. Our superior design eliminates cold flow, or "creep" commonly found in plastic pallets. The ergonomic hand holes allow for easy handling throughout your system.

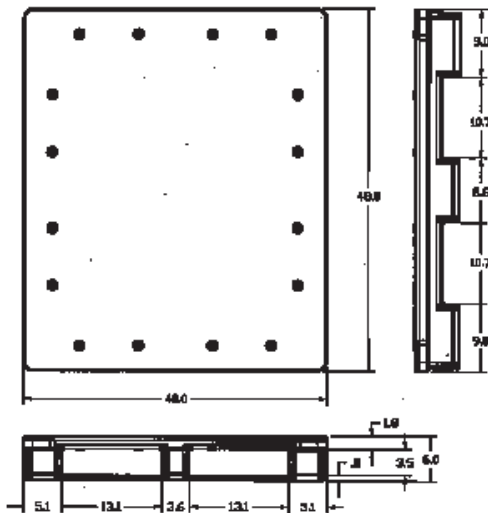

With 6 stocked versions available, the Rackstar II pallet will meet the requirements of virtually any application.

Industry Applications:

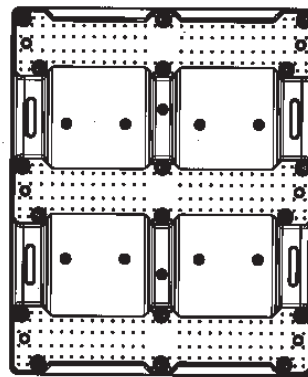

- Food processing
- Printing
- Powder and bulk solids
- Food distribution

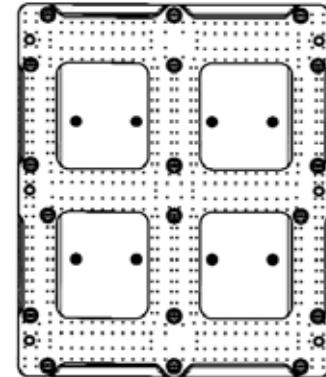

40 x 48 Rackstar II™ Rackable Pallet

Pallet deck with optional grommets

Stringer design with optional grommets

Full frame bottom with optional grommets

RNR = Solid feet/no stringers, STR = 3 Stringer, GRM = Grommets, LPD = Discontinuous lip, PC FRM = Full picture frame bottom

- Consistent weight for accurate transportation costs
- Environmentally friendly and 100% recyclable
- Smooth, all plastic construction protects product (no nails, rust or splinters)
- Reduces packaging waste by eliminating wood pallet disposal
- Improves workplace safety with smooth design and stable stackability
- Rapid economic payback

Design:

Injection molded for superior impact resistance and reduced deflection

Internal reinforcements available to meet aggressive application requirements

Solid wall design

Removable/repairable stringers or full frame bottom available

Options:

Deck and fork tine grommets
Inboard and outboard lip
ID Plates
