Freezer Spacers

**OPEN PROFILE
DESIGN**

- ◆ HDPE (High Density Polyethylene), structurally molded plastic.
- ◆ Ideal for tempering, cooling and blast freezing food products.

SPECIFICATIONS:

100% recyclable

HDPE

U.S.D.A. approved

Weight: 8 lbs.

Size: 40" x 48"

Height: 2"

*Colors: Blue
or Black*

ADVANTAGES:

- ◆ Designed for temperature sensitive applications.
- ◆ Air circulates rapidly through the cavities of the spacer giving even freezing through the pallet load.
- ◆ Maximum air penetration in Freezing and Tempering operations.
- ◆ Open profile design allows for easy cleaning.
- ◆ Nestable for space saving.

◆ Plastic Freezer Spacers are used in over 1,500 cold storage warehouses, including meat, poultry, fish, cheese, bakery, egg and dairy plants around the world with millions in service every day!
