Reduce Freight Claims & Damages from runaway pallet jacks.

The "Pallet Truck Stop" is designed to eliminate freight and trailer door damage due to runaway pallet jacks. It is easy to use, easy to store. It protects valuable freight and equipment from damage caused when a pallet jack rolls around unsecured inside a truck or trailer, doing damage to everything it hits or runs into. Pallet Truck Stop is the only device designed to hold any pallet jack in place in a moving truck or trailer. Why let a runaway pallet jack do damage to your equipment or freight?

800-350-0011

The "old way" meant that the driver had to man handle the pallet truck to tip it on its side.

The "NEW way" is as easy as placing the Pallet Truck Stop on the floor and rolling the pallet truck onto it.
