

Pallet Jack Stop

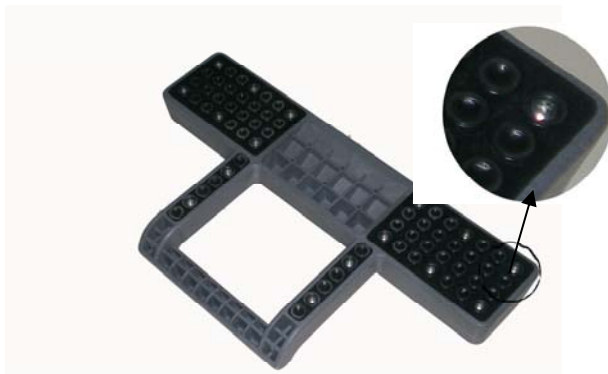

Model: PH08

Hu-lift design patent! Patent No. 200820001495.X

This unique pallet truck stop is designed to eliminate freight and trailer door damage due to runaway pallet trucks. It is easy to use, easy to store. It protects valuable freight and equipment from damage caused when a pallet truck drifts. Ideal for freight companies, trucking companies, and other material handling customers.

This durable Pallet Jack Stop prevents any movement on the floor of a truck or trailer. It can easily be picked up and placed in convenient spots. Drivers will never again have to tie down a pallet jack, use a load bar to hold it or flip it on its side. Just pull it into the Pallet Jack Stop and it's parked in less than two seconds.

Special design for increasing friction to the ground.

Easy to enter into due to slope design.

The chassis is supported by the stop.
The wheel is hanged to prevent moving.
