PREMIUM HIGH CAPACITY ELECTRIC SCISSOR LIFT

Electric Scissor Lift - High Capacity

**Weight Capacity:
3300 lbs.**

DGB 33

WHY CHOOSE BETWEEN PRICE AND QUALITY WHEN YOU CAN HAVE BOTH

PREMIUM HIGH CAPACITY ELECTRIC SCISSOR LIFT

**Powered by a high quality and long-lasting 12V battery.
Can be used as both, a pallet jack and a work station table.
Only 10-12 seconds to reach the maximum raised height.**

- Overload bypass valve system, provides safety and prevents the truck from being used beyond its rated capacity.
- The handle automatically returns to its original upright position, when released.
- Lifting motor power 1100 Watts
- Available in 21" and 27" wide frame
- **Note:** This equipment can only be used with open bottom pallets. Regular type pallets need to be placed on top of the forks.

Item/Type		DGB33	DGB22
Capacity Q	lbs	3300	2200
Lowest fork height	Inch	3.3	3.3
Max.fork height h1	Inch	31.5	31.5
Fork length×Fork width	Inch	43.3×26.8	43.3×26.8
Dia.of front wheel	Inch	3.0×2.0	3.0×2.0
Dia.of rear wheel	Inch	6.0×2.0	6.0×2.0
Lifting time in full range	S	18	10/12
Size of fork	Inch	6.4×2.0	6.4×2.0
Descending Speed	fpm	<0.02	<0.02
Motor working voltage	V	12	12
Battery voltage	V	12	12
Electric volume	A/h	63	63
Working pressure of pump station	mpa	21	15
Input/output voltage of charge	V	AC230/115DC12	200-240/12
Max charging current of charge	A	10	10
